TECHNICAL GUIDE NOTICE NUMBER 212

Purpose. To update the following PA Engineering Practice Standards:

Effective Date. This notice is effective upon receipt.

Explanation of Changes. The following standard and specifications have been revised for:

570 Stormwater Runoff Control - Standard and Statement of Work for this new national practice standard adapted for use in Pennsylvania. This practice sets up the criteria for controlling the quantity and quality of stormwater runoff and reducing erosion and sedimentation during and following construction activities.

634 Waste Transfer - Major reformatting of this Standard has been made to bring our Pa standard in line with the National Standard format. Major technical changes have not been made.

635 Vegetated Treatment Area - The new Pa standard reflects minor revisions and updates suggested by the new national standard.

Access Instructions. The official version of the FOTG is what appears in Pennsylvania's FOTG.
